

KLove serves me in that it encourages me with the music. I listen to it 98% of my driving and at work. The community would suffer if it is taken over by LPFM. People listen to it because God talks through the music and DJ's. Also, there is really no alternative to KLove in existence. The children would suffer because they would be subjected to the poor taste in programming on other stations. For these reason it is definitely in the public's interest to not allow LPFM to take over the airwaves and block Klove out. Thanks and God Bless!
